Why Choose Tresanti Wine?

Features

- Full extension drawer supported by steel ball bearing glides

- Locking cabinet doors
- Hidden storage

- Thermoelectric cooling technology is quiet, energy efficient, and eco-friendly

- Made from the highest quality hardwood and wood veneers, no particle or flake board

- Dual zone thermoelectric wine coolers with temperatures between 45 to 65 degrees F. (7 to 18 degrees C)

- Interior lighting: (3 level touch control lighting on select units)
- Display cabinets have mirror backs
- Stemware racks

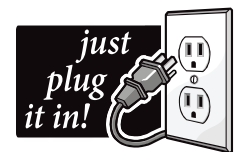

- Solid granite or marble cutting surfaces on select models
- Detailed hand carvings, classic lines and decorative accents to suit your style

Function

- Showcase your wine collection in beautiful heirloom quality furniture while properly maintaining your wines

- Keep your wine free from temperature and humidity fluctuations

- Prevent wine corks from drying out, and labels from aging

- Plugs into any 120 volt 3-prong electrical outlet

All Tresanti, ClassicFlame, & Duraflame™ products can be mixed in the same container

Tresanti is a division of
Twin-Star International, Inc.
